Learning Journeys

> Interdisciplinary learning activities
> Spaces for discussion and reflection
> Action learning
> Expert clinics
> Innovative online learning

Learning Journeys are informed by evidence syntheses from the **Research Helpdesk** which establish the evidence base and research gaps in the subject area.

Evidence from the **Research Helpdesk** can be used to inform innovative **Learning Products** to increase reach and uptake.

Learning Products are used to capture and increase learning generated through **Learning Journeys**, and to share expert knowledge.
