OVERVIEW

Mick Moore specializes in the political economy of good and bad governance. The core questions driving his work are: How is governance affected by economic structures, international economic transactions, extractive industries and the sources of government revenue? How do the governments of low income countries raise tax revenues? How might they tax better? He has extensive research and advisory experience in Africa and Asia. He has led many advisory missions and, for the past two decades, has been managing large international research programmes. He is the founding Chief Executive Officer of the International Centre for Tax and Development (2010 onwards).
